A TRIO OF NEW SCANNERS MAKES A WORLD OF DIFFERENCE

CanoScan now offers three superb additions to its exciting lineup of versatile flatbed scanners – CanoScan 5600F, LiDE 200 & LiDE 100. Blending Canon's world-leading optical technology with stylish, functional design, these remarkable new machines satisfy an impressive array of scanning needs – from high-resolution 35mm film scanning to space-saving vertical operation. However unique your requirements, these scanners are designed to fit perfectly into your world.

CanoScan 5600F – High Speed, High Quality CCD Scanner For Film, Photos & Documents

- Zero warm-up time
- Scan an A4 colour document in approx. 11 seconds
- 4800 x 9600dpi CCD scanning
- Auto Scan Mode
- Enhanced PDF Filing
- Scans 35mm film and slides
- Automatic dust & scratch reduction
- Seven EZ buttons

7 EZ Buttons – Easy Operation At the Touch Of A Button

Copy

- Sends image data directly to printer for a colour copy

Scan

- Initiates Auto Scan mode

E-mail

- Scanned data are directed to your e-mail program then automatically attached to a new compose window

4 PDF Buttons

- Converts documents directly to PDF files; OCR data are embedded to allow text searches; perform advanced PDF filing operations using the dedicated PDF buttons: Colour, Black & White, Custom and Finish

COLOUR BLACK & WHITE CUSTOM FINISH COPY SCAN E-MAIL

Scans with the most suitable settings to create PDF file

Settings can be customized

Finishes production of a multi-page PDF file

Starts Auto Scan Mode

Outputs scanned image data via your printer

Adjusts the size of scanned data and attaches it to email automatically or manually

LiDE 200 – Superb Speed & Quality Plus Space-Saving Vertical Scanning

- Scan an A4 colour document in approx. 14 seconds
- 4800 x 4800dpi CIS scanning
- Vertical scanning with clip-on stand
- 48-bit colour input/output
- Auto Scan Mode
- Enhanced PDF Filing
- Automatic dust & scratch reduction
- Four EZ buttons
- Convenient One-Cable Connection

Because the USB cable also serves as the power connection, no AC adapter is required. You're ready to scan as soon as you connect the scanner to your computer.

DESIGN THAT WORKS – SCANNERS THAT LOOK GREAT & WORK EVEN BETTER!

To speak of form and function is to risk sounding cliché. But in the case of Canon, the pioneer of stylish, high-function scanners, it underscores a tradition of innovation and excellence that defines the essence of CanoScan. Yet as great as they look, they work even better!

CanoScan 5600F Power Design

- Two-tone colour scheme and thinner profile make a stylish impression

LiIDE 200 Standup Design

- Stylish silver colour makes an elegant impression on the desktop

LiIDE 100 Operational Design

- Textured black cover emphasizes its stylish appearance

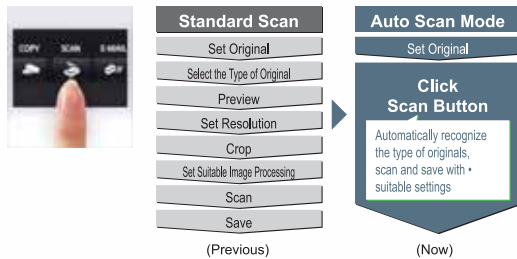

SHARED FEATURES & FUNCTIONS

Auto Scan Mode+ – **NEW!** Fewer Steps & Time-Saving Simplicity

- Recognises the type of original and makes all the suitable settings, so you can scan and save at the touch of a button
- The “SCAN” button initiates “Auto Scan”, replacing the “Photo” or “Photo/Film” buttons
- A vast improvement to the previous Scan Mode, which offered only standard scanning capabilities

+ Auto Scan Mode is for CS5600F, LiDE 200 and LiDE 100 only

Dual Colour Gamut Processing Technology – More Faithful Colour Reproduction

- Takes into account the type of original (photo or document) and paper (copy, photo or plain)
- Creates the optimal balance between colour differences and gradation
- Eliminates the differences between scanned images, as seen on the monitor, and printed images

Image Correction – Bring Perfection To Less-Than-Perfect Images

- Available for both printed photos and film; and in three levels

Backlight Correction

- Adjust the exposure of the scanned image to properly illuminate the subject of your photo

Fading Correction

- Quickly revive images that have faded over time

Grain Correction

- Give images a smooth, natural look even if originals appear rough and grainy

Dust & Scratch Removal*

- Hardware-based infra-red scanning and software processing work together, allowing you to remove dust and scratches with great precision; overcorrection and missed spots are eliminated

* Dust & Scratch Removal by infra-red ray is not available in CS5600F.

Improved PDF Filing – Even Large, Bulky Documents Can Be Filed Easily

NEW!

Classifying And Viewing Images In Categories

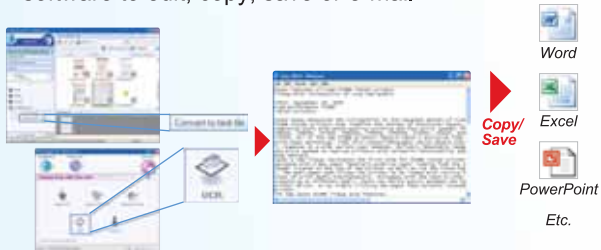

- Automatically places scanned and imported images into categories, making them easy to locate

NEW!

OCR Text Data Conversion

- Take text from a scanned image and then use appropriate software to edit, copy, save or e-mail

NEW!

Add Security To Scanned PDF Files (Windows only)

- Limit access to or restrict the printing of PDF files by giving them passwords; separate passwords can be created for a single file to give varied levels of access

Checkbox enables password to limit access

MP Navigator EX UI showing the checkbox that enables password for limiting access to PDF files

MP Navigator EX UI showing PDF files with passwords that limit access

ADVANCED

Stitch Assist

- Create a large image by “stitching” several images together; easier, more intuitive operation and more convenient creative options

ADVANCED

Gutter Shadow Correction

- Eliminates “gutter” shadows that often occur in copies made from books and magazines and optimizes brightness for areas that receive too much light

Additional PDF* Filing Features Improve Quality And Convenience

- Create Searchable and Multi-Page PDF files
- Corrects the slant of documents that are not properly aligned and automatically corrects improper document orientation
- Add pages to or rearrange pages in pre-existing files
- Compress PDF files for easier storage and transfer
- Prevents “show through” from the opposite side of a scanned document

* Not available in CS4400F

Specifications are subject to change without notice.

*1. Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.

*2. Preprocessing time is not included.

*3. Colour document scan speed is measured with ISO/IEC 24712 Newsletter. Scan speed indicates the time measured between pressing the scan button of the scanner driver and the on-screen status display turns off. Scan speed may vary depending on system configuration, interface, software, scan mode settings and document size etc.

*4. The fastest speed in Hi-Speed USB on Windows PC. Transfer time to computer is not included.

*5. Based on 1 frame of 35mm strip film.

*6. Based on 6 x 22cm film.

*7. Based on the maximum scanning resolution.
