

# kioskclean™

by bibliotheca

## Maintain and care for your library devices with our dedicated cleaning kit

kioskclean™ is our new cleaning solution designed to be used on our full range of kiosks and AMH systems. Improving the look and appearance of your equipment, the solution protects and maintains your library solutions, while offering patrons the best in user experience.

### Hygienic antibacterial cleaning solution

Fingers come in contact with all kinds of germs and bacteria everyday. The antibacterial fluid in kioskclean™ helps protect the screen and minimise the chance of contamination.

### Keeps screens clean and smear-free

Having a clean screen not only makes text and instructions easier to read, but also improves the overall customer experience. After all, who really wants to put their finger near a dirty, greasy screen?

### Versatile - can be used on any IT equipment

kioskclean™ is designed for use on any touchscreen or electrical equipment, including phones, tablets, computers and even cameras. The combination of antibacterial fluid and micro fibre cloth keeps all your library equipment in A1 condition.

## Convenient-sized bottle

The 100ml bottle has been designed to easily fit inside a kiosk door or desk drawer, meaning that the fluid is easily to hand at the end of the day or first thing in the morning.

## Quick and simple to use

A double squirt of kioskclean™ liquid onto the micro fibre cloth followed by a wipe is all that is needed - the whole process takes just a few seconds.

## Specifications
