smart serve™ 1070

your complete EM/RFID self-service kiosk

Perfect for hybrid library environments
The smartserve™ 1070 is ideal for libraries that currently use EM technology. Designed to grow with your library, built-in RFID is available at any point for future needs.

Seamless integration
To provide the best possible user experience, the smartserve™ 1070 has many options that are all integrated in ergonomic locations for quick and easy use during the self-service process.

A simple change makes a huge difference
We've flipped and enlarged the touchscreen. This 22" monitor allows over 20 items to be visible in a list view without the need for scrolling.

Collect more money, in any form you like!
With the ability to accept notes, coins, cards, chip & pin and now even Near Field Communication (NFC) payments, all payment methods are possible.

Light-based guidance simplifies the process
Our ingenious light-based user guidance system uses a series of LEDs to highlight the next step in the transaction, helping patrons effortlessly navigate through the self-service process.

smartserve™1070

Benefits that are not so 'standard'

These very attractive benefits can be seen in the standard model of every smartserve™ 1070.

22" portrait orientation displays over 20 items on screen

light based indicators guide the patron through the process

large illuminated aperture detects both EM and RFID items

user cards and barcode-only items are scanned with ease

health status light indicators alert library staff from afar

built-in receipt printer provides a complete account statement

Limitless possibilities to accommodate any request

Create your perfect kiosk by choosing between the following add-on options:

height adjustable control to suit individual users

desktop version saves valuable library space

secured media items can be unlocked at the kiosk

additional surface area holds bags and extra books

over 200 custom colours to match any library decor

accept user payments in the form of credit/debit card

increase library collections with chip & pin payments

accept fees and return change with coin & note

collect smaller payments using NFC

smartserve™1070
