

smartstation™ 520

Activate & deactivate EM strips with ease

The easiest way to activate and deactivate EM security

smartstation™ 520 is a complete solution that offers both EM security activation and deactivation in a single low-profile case. With only two user interface switches to operate (the first to power the unit and the second to select activate or deactivate), smartstation™ 520 truly is a remarkably easy way for library staff to control the security of items within the library.

Deploy full EM security control wherever it is required

smartstation™ 520 can be positioned anywhere in the library where a standard power outlet exists, giving you the freedom to deploy full EM security activation and deactivation wherever it is required.

Streamline workflow of security measures

smartstation™ 520 is the perfect way to decrease staff time and streamline workflows at many points around your library, allowing EM security to be added or removed in the most efficient way possible.

Specifications

Dimensions: h: 272mm / 10.7" | w: 225mm / 8.6" | d: 108mm /4.3"

Weight: 7.5 kg

Material: Stainless steel and glass

Power: Input voltage: 110VAC & 220VAC ± 10%, 50Hz

Performance: Functional height ≤ 40mm / 1.6"
Magnetising power ≤ 60W
De-magnetising power ≤ 30W

EM Specification: Detects a wide-range of EM labels

Standards & Compliance: CE, ISO9001

Installation: Working surface height ≤100mm /3.9"

Item processing: Only one item can be processed at a time

Product Source Number: E100
