

smartstation™ 200

Desktop solutions designed to assist staff with administration activities

The smartstation™ 200 provides staff with a fast and efficient solution to programme and verify RFID tags. Library staff can now have the ability to add or remove item security without the LMS/ILS. The system can be used with multiple items of mixed media, placed on the antenna at any time.

Additionally, using our smartstation™ manager software, the smartstation™ allows staff to perform multiple item issue, return and renew processes at the staff desk using a direct link with the LMS/ILS, including the ability to print receipts for the customer.

Focused read area

A fully shielded antenna providing concentrated detection field mean that only items placed directly on the smartstation™ antenna will be detected.

Compact design

Smaller in size, smartstation™ 200 allows you to work discreetly in more compact desktop environments.

Multiple read capability

The smartstation™ antenna can read multiple stacked items of varying size, weight and thickness.

Specifications

Dimensions (w x d x h):	Millimetres: 352 x 280 x 12.5
Shield:	fully shielded * Bibliotheca recommend this antenna is placed on top of a staff desk / counter-top surface, and not be placed underneath.
Weight:	Kilograms: 0.5 Pounds: 1.1
Power:	RFID reader connects to PC via USB or Ethernet (if the correct reader is ordered); it is supplied with a localised plug-in supply (110V ac/60Hz or 240V ac/50Hz). The RF power output is 1.2 Watt and the smartstation 200 conforms to CE and FCC.
Membership cards supported:	Barcode and RFID-enabled membership cards.
Software:	Our smartstation™ manager software will need to be installed on your existing PC, running Microsoft™ Windows (XP SP3 or W7 32/64). Connection to the LMS/ILS is only required for some of the functionalities.
Options:	A receipt printer and/or barcode scanner can be added to any smartstation™.

Although we make every effort to ensure information is correct at the time of release, it is possible that specifications and features may vary or change over time. Bibliotheca therefore makes no representations or warranties as to the completeness or accuracy of the information contained within this document.
